EDUCATION

The University of Texas at Austin, McCombs School of Business - Austin, TX
Master of Science in Business Analytics, GPA: 3.85 / 4 — May 2027

- Relevant Coursework: Advanced Machine Learning, Optimization, Information Management, Financial Management, Unstructured Data, Data Science
- Student Ambassador for prospective and admitted students

Macalester College, St. Paul, MN
Bachelor of Arts in Statistics, GPA: 3.79/4.0 — May 2025

- Honors: Cum Laude, Dean's List, and MIAC All-Academic (2023 - 2025)
- Relevant Coursework: Bayesian Statistics, Causal Inference, Statistical Theory
- Varsity Baseball Team (2021 - 2025): Pitcher and team leader, committing 20-25 hours/week year-round while balancing athletics and a full academic course load with consistent success

TECHNICAL SKILLS

- Technology: Snowflake, Git, GitHub
- Programming Languages: R, Python, SQL
- Office Suite: Excel, Google Office Suite

EXPERIENCE

Basal Strength, Austin, TX — September 2026 - Present
Business Analytics Intern

- Building an internal R-based analytics pipeline to automate collection, storage, and analysis of performance-testing and body-composition data for a strength-training startup
- Developing an internal R Shiny dashboard to give leadership self-service visibility into client and rep-level performance metrics

Aon, Minneapolis, MN — June 2025 - April 2026
Catastrophe Modeling Analyst

- Supported exposure data and model output preparation for four concurrent client teams, ensuring accurate, on-time submissions for reinsurance renewals
- Executed catastrophe models across five perils using RMS, Verisk, and AIR platforms, synthesizing outputs into client-ready summaries that informed multi-million-dollar risk transfer and reinsurance placement decisions
- Built client-specific process documentation to streamline future renewal cycles and reduce onboarding time for team members picking up an account

Kipsu, Minneapolis, MN — May 2024 - August 2024
Accounting Intern

- Recovered $400K+ across 200 properties by owning accounts receivable and debt collection, driven by 1,200+ targeted client calls/emails as well as creating Excel reports to inform business strategy and meet collection goals
- Spearheaded outreach to property managers by identifying AR trends and collection gaps, driving consistent improvement in monthly recovery rates

ACADEMIC PROJECTS

The Reality of Home Field Advantage — August 2024 - February 2025

- Applied exact matching on precision variables and E-value sensitivity analysis to estimate the causal effect of home-field advantage across all 30 MLB teams, finding a statistically significant win-rate boost for roughly half the league

The Impact of the ACA on Healthcare Access in Minnesota — August 2024 - December 2024

- Analyzed ACA's impact on healthcare access across Minnesota counties, comparing before/after trends in health outcomes; large counties saw significantly greater improvement than small counties
- Built an interactive R Shiny app with county-level maps to visualize insurance coverage trends by year and demographic, supporting exploratory analysis of ACA effects
